Inside The Numbers

Perfecto, who had never fought past six rounds, acquitted himself well, but the skills gap was too much to overcome. Rivera-Pizarro went to the body relentlessly, landing 95 body shots to Perfecto's 13, and dropped him with a right hand in the second. He outlanded Perfecto 198-102 for the fight and connected on 46 percent of his power punches. He also lost a point for low blows in the ninth. All three judges gave him every round, scoring it 99-89.
